

A Few "Beauses"

Why we ask for and expect your grocery trade.

BECAUSE as far as it is possible to determine our stock takes in all the good kinds, and leaves the others out.

BECAUSE if you are particular about eatables, our store will appeal to you.

BECAUSE we play the game of business fair and square. We make right any mistakes that we may make as soon as we hear of them.

BECAUSE we try awfully hard to "get there on time." We appreciate the inconvenience of waiting for goods to be delivered.

BECAUSE In spite of all these advantages your dollar is as large here as anywhere, often larger.

Try and prove.

A Letter

From Colorado

Former Editor M. Earle Adams Writes
of His New Home in Thriving
Prairie City

Editor Dick—I promised you I would write you when I got here in Colorado, and so I will now sit down and let my fingers talk for me.

I have been here less than two months, and I confess I was homesick the first week or two. The country, as far as scenery is concerned is as different from the Santa Clara Valley as day is from night. Here the natural state of things is prairie, with no trees, no water and no green things of any kind. No mountains are to be seen, and everything depends on irrigation for a living. But man is making a wonderful change in the plan of things here, and where water will run, it is rapidly being settled. The country is young yet and has a great future before it, I believe.

Lamar, the city in which I am employed, is a place of perhaps 4500 people. It is the county seat, has electric lights, a sewer system and \$150,000 water system in process of erection. The one thing which appeals to me is the "boosting spirit" which pervades everyone. The city recently raised \$100,000 among her citizens to secure the terminal facilities, and division point of a prospective railroad, the money being in local banks awaiting the completion of the road. The city voted "dry" about a month ago, thus showing that the best class of citizens are in the majority here.

As you know I am foreman of the "Daily News" a small daily, but nevertheless "all there" when it comes to progressiveness, I believe I am making a success of things here, and am glad I came.

How are things in Campbell? I notice a decided improvement in the "Press" and hope the local people are appreciating the efforts you are putting forth to give them a clean little home sheet, one that they will not be ashamed of, for the "Press" is a good little paper, and I like your way of telling things.

Under separate cover I am sending you two or three of our dailies, and also the weekly. I'll not bother you with any further information at this time, for I know the duties of an editor do not permit him much relaxation to read "trash."

If you think the people of Campbell would be interested in this you have my permission to publish it.

Sincerely yours,

M. Earle Adams.

Methodist Episcopal Church Notices, May 22

Rev. W. C. Evans, D. D., District Superintendent of San Francisco District will preach at 11 a. m., Sunday next.

Let everyone make a special effort to come out Sunday morning and hear Dr. Evans.

The Contest for new members in the Sunday School is nearing an end. Each scholar is urged to bring a new scholar Sunday morning.

Every Leaguer should be present at League meeting Sunday evening. It is the opening service of the new League year under the new Cabinet.

The Pastor will preach at 7:30.

You are cordially invited to attend all of these services. If you are a stranger among us we will be especially glad to welcome you.

John F. Wilson, Pastor.

To Visit Old Home in Iowa

On Monday afternoon Mr. and Mrs. A. G. Williams left here for a trip to their former home in Grinnell and Chester Iowa. They go by the Canadian Pacific Route making stopover visits with friends at Tacoma, Washington, also with Mrs. Lyne formerly of Campbell but now at Vancouver. They expect to be away about ten months and will return by the way of Colorado where they will visit their daughter, Mrs. Gratton, with whom so many of the Campbell ladies are acquainted.

Our Agents Make \$50.00 a Week

Selling new process water color portrait and gold frame. Costs 90 cents complete with glass, sells for \$1.98. Samples and instructions free. Young man in Ohio made \$22.00 in one day. We are the largest picture and frame house in the world. One general agent wanted in each county. Give us reference and we will extend you thirty days' credit with steady, honorable employment at a big income. Our business is established twenty-five years. We are not in the picture and frame trust. We want honorable, trustworthy representatives only. You need no capital to work for us. We teach you how to make a success. Address at once

WILLIAMS ART COMPANY

Local and Personal

Mrs. Wilson of Palo Alto spent Friday and Saturday with Mrs. H. V. Matthews.

Ralston Alison has taken a position in the Bank of Campbell.

Mrs. Sadler returned Tuesday from a two weeks' visit with friends at Berkeley.

Dr. Cooper is having a 12x12-foot addition built on the north end of his office building.

Professor Snow is planning to take his geography class on a trip to Mt. Hamilton next week.

Miss Yeva Schumann of Berkeley has been visiting at the home of J. F. Wilson the past week.

The recent Junior Farce netted about \$35, which money will be used for school purposes.

Mr. B. H. Bowles stopped over with Mrs. M. Palmer to see the Rose Carnival on his way to Newman.

Mrs. Huldah Parker will occupy the house of Mr. and Mrs. A. G. Williams during their absence in the East.

A group of ten members of the senior class start for Mt. Hamilton this afternoon. They will return Sunday.

Mrs. J. Roberts made a week end visit with Mrs. A. Oliver returning to her home in San Francisco on Monday.

Mrs. A. Whittier of Boston visited from Monday to Thursday of this week at the home of H. V. Archibald and family.

The young ladies of the Searchlight class of the Congregational Sunday school held a picnic at Congress Springs last Friday.

Two more dogs have this week eaten the deadly poison. One belonging to Chas. Townsend and the other to L. Genasci.

Mr. and Mrs. Warren French will leave Monday for a two weeks' camping trip in the Santa Cruz Mountains. They will go in an auto.

Rev. Geo. Atkinson went to San Francisco on Monday to attend the meeting of the Executive Board of the Home Missionary Society.

Mrs. F. Carvello and little daughter of San Francisco spent several days with Mrs. A. Oliver, attending the Rose Carnival while here.

Mrs. Fickett, of San Francisco, visited with her daughter, Mrs. W. L. Baird over Sunday, previous to going to Tacoma to reside.

S. L. Dowton left Tuesday for Stevenson, Merced Co., where he has purchased a large ranch and will engage in the cattle business.

Mr. and Mrs. Estey of Soquel spent several days of last week with H. V. Archibald and family. Mr. Estey is one of the supervisors of Santa Cruz county.

Four little folks enjoyed a delightful picnic at Congress Springs last Saturday. They were Carol and Lois Wilson, Joyce Robson and Harold Marshman. They were accompanied by Miss Ethel Sullivan.

The Eddleman bakery people are going to do their part toward helping the people of Campbell keep cool and good-natured this summer. They have just installed a fine new one-horse-power Westinghouse electric motor with which to run their ice cream freezers.

FOR RENT CHEAP.—A 4-room cottage. Good basement, small barn, high house. Enquire of C. W. Gilman.

Organizing a Bank

Harlow Plimpton, who has been assistant cashier of the Bank of Campbell for several years, is now at Vacaville organizing a national bank. His many friends here are glad to see him branching out, and since he has been raised in the banking business and shown exceptional aptitude for that line of work, there is no question but that he will make an unqualified success of this new undertaking. Mr. Plimpton is a young man of high moral character and sound business principles, and the people of this community join with the Press in commending him to the confidence of the citizens of Vacaville.

Lion Fondles A Child

In Pittsburg a savage lion fondled the hand that a child thrust into his cage. Danger to a child is sometimes great when least regarded. Often it comes through Colds, Croup, and Whooping Cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of Croup," writes Mrs. George B. Davis, of Flat Rock, N. C. "We always give it to him when he takes cold. It's a wonderful medicine for babies." Best for Coughs, Colds, LaGrippe, Asthma, Hemorrhages, Weak Lungs. 50c. \$1.00. Trial bottle free. Guaranteed by all Druggists.

CAMPBELL BOYS WIN DEBATE

After Many Weeks of Hard Work the
Home Team Gains Victory
Over Palo Alto

The debates between Campbell and Palo Alto, two of the High Schools belonging to the Santa Clara County Debating League, took place Monday night. By the rules of the league, two debates take place the same night, one team going to the opposing school and one team remaining at home. Max Currier and Robert Pendleton, who went to Palo Alto, lost the debate there by one-third of a point. George Beaver and Howard Bean, who debated for Campbell at home, won the debate by three points. Bessie Palmer was alternate for the team that remained at home and Floyd Bohnett for the team that went to Palo Alto. Quite a crowd was out to hear the debate and encourage the teams.

Since the winning team was entitled to five extra points, the total score for Palo Alto was 98½ points and that of Campbell 106½.

The people of Campbell are proud of the work of these students, and hope this victory will lend interest and enthusiasm that will result in like victories next year.

The Devil in the Rooster

Everybody knows of the fondness of Methodist preachers for chicken. The local pastor, John F. Wilson, is no exception to the rule, but, however, is a little more choice than the ordinary minister as he prefers to raise his own fowls. Judging from the large number of fine young birds which he is caring for in his backyard, he must have an unusual appetite for chicken, and also must like a variety. Along about next fall—if he does not devour them all before that time—he can take his big hatchet and go into the henyard and select anything his appetite might dictate from a peewee Seabright banta to a mammoth Black Minorca.

A chicken is considered the most religious of all birds—probably because of the fact that so many of them enter the ministry,—but Mr. Wilson has one black rooster which is developing quite the opposite tendency. It is actually growing horns. The vicious looking little weapons are well placed on top of the head, one on each side of the comb, and are growing quite rapidly. We have heard of the devil in snakes and men but never before in a rooster. For fear that Mr. Wilson might be thinking of giving up the work of the ministry and going into the show business, we suggest that the local organization offer him an increase in salary.

Farewell Reception

On Saturday afternoon twenty-two of the lady friends of Mrs. A. G. Williams met at her home on Harrison Avenue to wish her God-speed on her journey and a safe return to her home here in the future. There were toasts given by a number of the ladies and responded to by Mrs. Williams. The toast by Mrs. Cooper took the form of reminiscences of their school-girl days together in Grinnell. So with conversation and light refreshment the afternoon was delightfully spent.

Stereopticon Lectures

At the Congregational church next Sunday evening Rev. W. J. Spears will display stereopticon views on the life of Christ, and on Monday evening scenes of "Eight Hundred Miles Through California." Mr. Spears has a very choice collection of slides and the views will be both interesting and profitable to all who attend. A freewill offering will be taken and the proceeds will go to help rebuild the Mayflower church at Pacific Grove.

A Man Wants To Die

only when a lazy liver and sluggish bowels cause frightful despondency. But Dr. King's New Life Pills expel poisons from the system; bring hope and courage; cure all Liver, Stomach and Kidney troubles; impart health and vigor to the weak, nervous and ailing. 25c at all Druggists.

Combination of Mountain View Newspapers

The two newspapers of Mountain View, The Leader and Register have been combined under the ownership of L. B. Woodruff, who has heretofore been owner of the Register. Mr. Chas. Miller will remain manager of the Register and Mr. Woodruff will have charge of the Leader. Mr. P. Milton Smith, former owner of the Leader, states his intention to continue his real estate business in Mountain View.—Sunnyvale Standard.

Hours, 9:30 to 4

DR. S. W. MILLER

Dentist

Office, 1, 0, 0, F. Building Campbell

New Store Building

Men are at work this week preparing to bisect the large Sutter building. The rear half now facing Central avenue will be moved around so as to face Campbell avenue and occupy the lot on the east. Two more nice storerooms will thus be made available for Campbell's growing business.

Thanks

The float committee wishes to thank all those who helped to build the float for the Floral parade, especially those who did more than their share, and also those who not being residents of the town very generously helped out in the matter.

WORLD'S NEWS PRESENTED IN BRIEF ITEMS

Events of Both Hemispheres
Compiled in Pithy Form
For Busy Readers

Here You Will Find a Resume of
Happenings in Almost Every
Part of the Earth.

San Diego.—An attempt to fill a lighted gasoline stove resulted in an explosion that badly burned Mrs. H. Rischoff of El Cajon and a child who was visiting her.

Pueblo.—Martin Obermann, a smelter laborer, was arrested on the street while engaged in praying to Halley's comet in a voice that could be heard several blocks. He was placed in an insane ward.

Yokohama.—The boycott of Chinese against all classes of Japanese ships, begun two years ago, and which has resulted in enormous losses to Japanese steamship lines and diversion of commerce from its former channels, has been formally declared off.

New York.—John Ennis, aged 68, a well known athlete of Stamford, Conn., plans to take a swim in the Atlantic, then walk across the continent and take a swim in the Pacific. Ennis will attempt to make the trip over Weston's trail in 100 days to beat Weston's record of 105 days.

Milwaukee, Wis.—The entire northeastern part of Minnesota is smoldering and smoking, vast timber areas in Wisconsin are being swept by flames, several villages are threatened with destruction, and large losses seem inevitable. The fires are scattered over an area of at least 500 miles.

Denver.—August Rische, who discovered the "Little Pittsburgh," the famous Leadville mine that laid the foundation of the wealth of many Leadville miners, is seriously ill here with pneumonia. Rische, who ran through his wealth, has been employed as substitute janitor at the capitol for a number of years.

Dayton, O.—Announcement has been made here that the Wright Brothers will attempt to better Paulhan's long-distance aeroplane feat by flying from Dayton to Chicago. A date has not been definitely set for the trial beyond the statement that it will be within the next few weeks. The distance is approximately 250 miles.

Phoenix, A. T.—Two bandits, who scorned masks, captured train No. 16 of the Arizona Eastern Railroad, a mile from this city, and after robbing the passengers, who included John B. Wright, Attorney-General of Arizona, and two deputy sheriffs of Gila county, dashed to the desert, where they were later captured by a posse. Both were less than 18 years of age.

Washington.—A delegation composed of many Pacific Coast Senators and Representatives in Congress called at the navy department and urged Secretary Meyer to build all the four submarine torpedo boats, for which bids were recently submitted, upon the Pacific Coast. Meyer did not make any promise. It is probable the question will be determined by the naval experts.

Juneau, Alaska.—The schooner Anita Phillips is back from Yakataga, on the seacoast of southern Alaska, west of Prince William Sound. The captain reports that place was on the verge of famine when he reached there. The only supplies the inhabitants had were beans and a small amount of tea. The Phillips had 16 tons of supplies for the store at Yakataga, which will last this summer.

New York.—The New York Theater on Broadway has been closed by Mayor Gaynor's order on account of the many complaints made to him about the indecent character of the play called "The Girl With the Whopping Cough," which has been running there two weeks with Valeska Suratt, a slightly clothed actress, in the title role. The New York Theater belongs to Klaw & Erlanger.

Salt Lake City.—Surveyors at work in Moab, Utah, are supposed to be locating a route for a road to connect with the Oregon Short Line at Granger, Wyo., with the Southern Pacific extension from Lordsburg, N. M., to Durango, Colo. It would give the Harman system direct communication between Puget Sound territory and the Gulf and bring it into competition with the Hill lines.

GRAIN FARMERS CONFRONTED WITH A SERIOUS PROBLEM

Still Have a Third of Last Year's Crop
On Hand and No Market.

Tacoma.—H. H. McLean, president of the Farmers' Union, announced the other day at Walla Walla that an office would be opened at Chicago to dispose of the Walla Walla grain, and that the farmers plan to ship it direct, expecting to get a better price than the northwestern exporters are offering. The farmers and grain dealers of Columbia county are facing a problem unknown before in the history of eastern Washington farming. The estimate of local buyers places the amount of grain now stored in the warehouses at Dayton, Turner, Longs, Huntville, Starbuck and Alto at 1,000,000 bushels, or approximately one-third of Columbia county's crop last year, although the harvest is only two months off, there is no indication that this great surplus of grain will be moved to tide water, and it is considered inevitable that the farmers will be forced to store a large part of this year's crop on their farms. Dayton buyers lay the blame for this condition at the door of the Farmers' Union, which urged the farmers to hold their grain last fall despite the high prices.

Mayor Has Business Eye.

Milwaukee.—Mayor Seidel, this city's Socialist executive, has evolved a plan which he believes will not only increase the prestige of Milwaukee as a manufacturing city, but will bring many dollars to the municipal treasury. He would have the city go into the real estate business and handle manufacturing sites, as well as residence property. The mayor proposes that the city buy land at low prices, plat it in accordance with plans for increasing railroad sidetrack facilities, and resell it for factory sites at a comfortable margin of profit.

Southern California Gets Shaking.

Los Angeles.—This city and surrounding territory were visited Sunday by a series of earthquake shocks that alarmed many people, broke dishes, destroyed house ornaments, and cracked walls of the lighter class of construction. The shocks lasted about an hour and were felt at the beach resorts and in Pasadena, Riverside, Redlands and San Bernardino. Pasadena suffered the heaviest damage.

Indians Preserve Their Rights.

Washington.—The threatened Indian uprising in New Mexico is over and all danger is averted. A report from Superintendent Crandall to the Commissioner of Indian Affairs says the Taos Pablo Indians were well within their rights in cutting the fences of settlers, for the fences encroached on Indian lands. The courts of the territory refused to prosecute the red men.

Break Ground for Donner Monument.

Truckee.—Under the auspices of the Donner parlor, N. S. G. W., ground was broken a few days ago for the Donner monument to be erected by that order on the spot where the members of the Donner party camped near this city years ago while trying to make their way to California, which a few of them finally reached.

Mountain of Blazing Oil.

Oroville.—It is proposed to illuminate Table mountain as a part of the celebration to be held here next month incident to the water carnival. Oil spraying machines will be stationed along the edge of the cliff facing Oroville. These will throw oil high into the air, and furnish illumination which can be seen for miles.

Law-makers Getting Tired.

Washington.—A resolution providing for the adjournment of Congress on June 4 was introduced in the House by Representative Fuller (Republican of Illinois) and referred to the Committee on Ways and Means. Leaders of the House and Senate have predicted that adjournment is not likely before July 1.

To Aid Quake Sufferers.

San Jose, Costa Rica.—Congress has authorized the Government to spend \$250,000 to aid the Cartago earthquake sufferers and for relief work. It is proposed to increase the bank issue and obtain a loan on account of a lack of funds.

Mad Dog Ruins Cattle.

Los Angeles.—Because a mad dog got into a valuable herd of steers at San Jacinto and bit a number of them, several thousand dollars' worth of fine animals had to be killed.

Good Catch Opens Salmon Season.

Monterey.—The salmon season opened here last Sunday with a catch of more than 2000 fish. About 125 boats were engaged in fishing.

San Francisco's Plans for Fair Astonish Congressmen

"We shall have at least \$10,000,000 available and we shall not ask the Federal Government to guarantee or supply a cent toward our part of the undertaking, and, as President Taft has said, San Francisco is the logical place for holding the exhibition."—Governor Gillett before the House Committee on Foreign Affairs.

Washington.—San Francisco's request that it be officially recognized by the Government as the one city in the United States where an exposition commemorative of the completion of the Panama canal should be held has formally been presented to Congress. The showing made was overwhelming. It was the first complete, comprehensive statement that had been made in the national capital of what the western metropolis has already done and what it purposes in the way of a Panama celebration.

It is no exaggeration to say that the members of the Committee on For-

eign Affairs were made to sit up with wonder and the representatives of New Orleans were filled with despair at the magnitude of San Francisco's plans. It appeared to be only out of a solicitous regard for the precedents of fair play that the committee deferred action that other rival cities might have a chance to be heard.

A situation seems developing in which the country will demand that San Francisco give the show, so attractive and elaborate are the plans of entertainment and celebration that the city offers. And in the subscription of millions, the most important factor, after all, no other city can begin to compete. It was demonstrated, though the committee did not act, that the issue was as good as settled as to which city ought to have and will have the fair. To obtain action from Congress at the present session is about the only problem remaining for San Francisco.

Comet Brightest May 23 During Total Eclipse of Moon

Vallejo.—Professor See, the United States Government Astronomer at Mare Island Observatory, says the head of the comet will probably be brightest on May 20, but the strong moonlight will cut down the light of the tail; and this difficulty will exist each evening till May 23, when a total eclipse of the moon will occur, and enable us to see both the head and tail of the comet in a dark sky for an interval of 51 minutes.

It is during the eclipse that we may expect to get the best views of the comet, and every one should be on the watch for both the eclipse and the comet. The important elements of this total eclipse of the moon are as follows:

Beginning the totality, May 23, 9h 9m Pacific Standard time.
Middle of eclipse, May 23, 9h 34.3m,

Pacific Standard time.
Total eclipse ends, May 23, 9h 56.6m, Pacific Standard time.

Thus from a little after 9 to 10 o'clock the moon will be in total eclipse, and the comet will show both head and tail and full tail above the horizon. On May 23 the sun sets at about 7h 20m in the altitude of San Francisco, and as the comet follows the sun by three hours and 46 minutes, the head will not set on this date till about 11 o'clock in the evening.

Accordingly from 8:30 till 10:30, when the moon will be nearly covered by the earth's shadow in space, on the evening of Monday, May 23, every one should watch for the eclipse and the comet, as both will be visible at a very seasonable hour of the night. It may be a long time before we again see two such wonderful sights.

Suffragette Tells Her Sisters They Are Too Frivolous

Chicago.—The most remarkable suffragist in the world—this was the title accorded to Mrs. Margaret Allen of the Douglas Park Club, who almost wrecked a suffragist meeting at the West Chicago Masonic Temple.

Mrs. Allen made a speech filled with iconoclastic observations regarding her sex. Here are some of her views: Woman, as a rule, should vote as her husband does, or, lacking a husband, should follow the example of her father or brother.

Women are too prone to imitate the

butterfly to be good students of conditions.

Women read trashy books, squander money on useless display and are the chief supporters of "back number" churches.

Women are frivolous, dogmatic and poorly informed.

Mrs. Allen's remarks caused astonishment. Later a vote was taken by which Mrs. Allen was given to infer that it was the sense of the meeting that she was in both the wrong church and the wrong pew.

California Cherries Bring Big Prices in the East

Sacramento.—The first five cars of cherries sent from this section of the State to the auction markets in the big eastern cities in the last few weeks brought in more than \$24,000 to shippers in northern California. Fifteen cars in all have gone east this season and extraordinary prices have been realized in all instances. Black cherries are nearly finished in the early districts and there is not much left outside of Bings, Black Republicans and Royal Anns. As nearly as can be

estimated at present, the Bartlett pear crop will be about 60 per cent of the full crop and perhaps 75 per cent of the last year's output. Fruit is clean and promises to be of a fine size. Early apricots have begun moving in small quantities and this week will show quite a sprinkling of them in cars from Vacaville and Winters. Grapes continue to show satisfactory conditions. They are making a very good growth, and the crop, while not large, will be normal and should be of an exceptionally good quality.

Fasted 39 Days to End Stomach Trouble and Succeeded

Seattle.—L. E. Rader, formerly prominent in State politics and at one time a member of the Legislature, died after fasting 39 days. Rader had been suffering from stomach trouble and upon the advice of a woman physician, decided to take the "starvation treatment." Several days ago the attention

of the City Health Commissioner was called to the fact that Rader was starving himself to death and an effort was made to induce him to take nourishment. This he refused to do, and, as there was no law by which he could be forced to eat, he was left to his fate.

Boys Rocked Boat to Frighten Girls; Eight Drown

Wilkesbarre, Pa.—Rocking the boat to frighten the girls caused the drowning of six girls and two boys out of a party of twelve on a millpond at Huntington Mills, a country village fifteen miles from here. The four who escaped are boys, and they got to the

shore exhausted after a vain effort to save the girls. All of the party were members of the graduating or the junior classes of the high school at Huntington Mills, and were out for a frolic during the lunch hour. They were all between the ages of 16 and 18.

FORTY WIVES WILL CAUSE TROUBLE FOR SIAM'S KING

Hawaiian Official Ambitious to Pinch
Muchly Married Monarch.

Honolulu.—The one ambition of United States District Attorney Breckons is to pinch a real king and his harem. And the announcement that His Majesty King Chulalongkorn of Siam, accompanied by 40 wives, is to touch at Honolulu, en route to the main land of the United States, has aroused in the breast of the legal light of the Department of Justice the hope that he may within a few months achieve fame or notoriety as the only real arrestee of a King.

In Hawaii the Edmunds Act, passed by Congress about 60 years ago for the prevention of polygamy in Utah, is enforced on the ground that it tends to inculcate morality among the inhabitants of these islands. Among other applications, the Edmunds Act views with alarm the possession by any one man of more than one wife. The King of Siam, with 40 wives, is 40 times guilty in the eyes of United States District Attorney Robert W. Breckons, wherefore United States District Attorney Robert W. Breckons proposes to pinch the King of Siam and his 40 wives.

Age No Bar to Romance.

South Bend, Ind.—Married in their teens, divorced 27 years ago, each taking another mate a short time afterward, only to come back to each other and be married again in this city, is the succession of marital experiences of Henry Ransstead, a retired farmer, 81 years old, and Mrs. Jane Frame, 77, of Terre Coupe, Ind. They were married at the court house here by Justice W. B. Wright. What makes the marriage even more interesting is the fact that the only children of which either has been the parents are the issue of their own first marriage.

Woman Declared Legally Dead.

San Francisco.—Because she has not been heard of for nearly 20 years, Mamie Lou Duncan was declared legally dead by Judge Graham. About \$2000 was turned over to her aunt, Mrs. Johanna Wahl of this city. When Mamie Lou Duncan was two years old her mother met accidental death in Portland. The child was taken care of by the Duncans, who shortly afterward disappeared.

Engaged Since Civil War.

Stamford, Conn.—The marriage of Miss Emily Brown, a Stamford school teacher, to Norman Provost culminates a courtship which began before the Civil war. The two were sweethearts before the war broke out, and Provost enlisted in the Union army. They have been engaged ever since, but have postponed their marriage from time to time for various reasons.

Accidentally Electrocuted.

Oakland.—Stepping into a pool of water on the floor of the separating room of the Model Creamery at Twenty-eighth and Grove streets, and at the same time turning an electric current into a light bulb, Frank Loveland, foreman in the place, accidentally sent a shock through his body which instantly caused his death.

To Fly for World's Championship.

New York.—The directors of the Aero Club of America decided to hold the international aviation meet on Hempstead Plains, Long Island. St. Louis, Indianapolis, Los Angeles, Seattle, Wash., and Baltimore all attempted to get the meet. The race for the world's championship will be held October 2.

Dime Novels Cause Boys' Downfall.

Martinez.—Claude Jenkins and Sid Severance, 19-year-old horse thieves, were brought to Martinez a few days ago by Sheriff Veale. They were arrested in Merced county. The boys were would-be "bad men." Their downfall was largely due to the dime novel. They have confessed.

Throwing Rings Not Gambling.

Albany, N. Y.—Throwing rings at knives or canes, which is in vogue at county fairs and other places of amusement, is not gambling within the meaning of the law, but a test of skill, according to an opinion issued by the State Attorney-General.

Postpone Expulsion of Jews.

Khiev, Russia.—The expulsion of Jews residing illegally in Khiev did not begin last Sunday as scheduled. It is reported that forcible measures will not be employed immediately.

137 Killed by Mine Explosion.

Manchester, England.—One hundred and thirty-seven miners lost their lives in an explosion of fire damp in the Wellington coal mine at White Haven.

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific
Slope Presented in Com-
pendious Array.

Passing Events Among Your Neigh-
bors Briefly Told in Short,
Newsy Paragraphs.

Hayward.—A poultry show is to be held in connection with the Fourth of July celebration in this city.

San Francisco.—This city will have a noiseless Fourth of July. The Supervisors refused to repeal the ordinance prohibiting the discharge of fireworks by the patriotic small boy or girl.

St. Helena.—Caught under the weight of a house, the underpinning of which collapsed while he was engaged with others in raising it, Svend Madsen, a carpenter, 27 years old, was crushed to death.

Bellingham, Wash.—Florence Kilcup, the 16-year-old daughter of a farmer living near Lawrence, 10 miles northeast of this city, was dragged for half a mile beneath a wrecked wagon in a runaway and was picked up dead.

Eureka.—Eight hundred more men, making 1000 in all, are to be placed at work on the Northwestern Pacific railroad extension south of Shively in this county. No time will be lost in completing the 105 mile gap connecting Eureka and San Francisco by rail.

Vallejo.—Two large frame buildings in the heart of the business district, occupied by several stores, a barber shop, cigar stand and photograph gallery, were destroyed by fire. Brick structures on either side of the burning buildings prevented the spread of the flames. The loss is about \$12,000.

Sacramento.—Athletic sports or exercises inappropriate to the day will not be held or participated in by the National Guard or Naval Militia, as such, on Memorial day, according to an order issued by Adjutant-General J. B. Lauck in calling attention of the State soldiery to the sacred duties to be performed on May 30.

Vancouver, Wash.—Failing to convince a jury of Clark county that the injuries she swore she sustained as the result of a street car accident were real, Mrs. Maud Johnson, the "Queen of Fakers," was found guilty of defrauding the Seattle Electric Company, and was sentenced to an indeterminate sentence of from one to five years.

San Francisco.—Herman Irwin appealed to Police Judge Conlan with the statement that he was hungry and had nothing to eat for two days after he stole a bottle of cream from a door step and was arrested on a charge of petty larceny. Irwin said he had been living a next to starvation existence in this city for three months. He was discharged.

San Francisco.—The Counties Committee of the California Development Board will hold its semi-annual meeting at Grass Valley and Nevada City on Saturday, June 4. The gathering is for the purpose of bringing about cooperation among all California development and betterment organizations. A round-trip rate of fare and one-third has been given on all railroads.

Auburn.—One of the largest judgments ever given in default in this county was entered recently against the Brand Gold Mining Company in favor of C. E. Martz, administrator of the estate of his son, who was killed in the company's mine by an explosion several weeks ago. Martz asked for \$25,000 damages for the death of his son and the company refused to make any defense.

San Francisco.—T. Mara and Miss Louise Phillips of Carson, Nev., were married on the ferryboat Encinal on a late trip from San Francisco by Rev. J. E. Wright of Oakland. They had a San Francisco marriage license, but went to Oakland to have the ceremony performed. The license was not valid in another county, so, taking the minister in an automobile they started back to this city and were married while crossing the bay.

Sacramento.—The first carload shipment of cherries from California this season sold in New York at auction for \$5550, or an average of \$2.53 for each 11-pound box. These cherries were from Sacramento, Solano and Placer counties. The second carload shipment sold in Chicago for \$5510 and was from the same counties as the first shipment. The prices for the several varieties were as follows: Tartarians, \$1.95; Knights, early black, \$1.80; Purple Guignes, \$1.15; Rockports, \$1.75; Black Hearts, \$3.60; Royal Ann, \$2.30; Advance, \$1.80; Chapmans \$2.75.

Household Remedy

Taken in the Spring for Years.

Ralph Rust, Willis, Mich., writes: "Hood's Sarsaparilla has been a household remedy in our home as long as I can remember. I have taken it in the spring for several years. It has no equal for cleansing the blood and expelling the humors that accumulate during the winter. Being a farmer and exposed to bad weather, my system is often affected, and I often take Hood's Sarsaparilla with good results. Hood's Sarsaparilla is Peculiar to Itself. There is no 'just as good.' Get it today in usual liquid form or tablets called Sarsatabs."

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

Murder Will Out.

In a county seat in one of the middle Western states dwelt a lawyer who, after a practice of thirty years, had accumulated a competence and retired. Being a man of much more than ordinary ability, an excellent speaker, entertaining decided political views and enjoying the confidence of the community, he was urged by his friends to run for Congress. He refused. In vain they pointed out the fact that a nomination would be equivalent to an election, and pledged themselves to secure his nomination. He would not listen to them. A man high in the political councils of the state came to see him and added his persuasion.

"You ought to take that office," he said. "It might lead to something higher. You would make a national reputation."
"That's what I am afraid of."
"What do you mean by that?"
"Well," answered the lawyer, hesitatingly, "I will tell you, but it is in strict confidence. It must not go any further. Many years ago, when I was young and inexperienced, I published a small volume of original poetry. So far as I know, there is not a copy of that book in existence now, but one would turn up in some corner of the world if I were to run for office, and the papers would print extracts from it. I wouldn't have that happen for a million dollars. No, sir, nothing doing!"

Not Mr. McChanic.

Scotch highlanders, who still speak the Gaelic at times, settled much of the country north of Toronto. One day Dr. Rutherford, locally famous, was looking for some men to do some work for him. He went to a village blacksmith shop and found several of these Scotchmen standing about.
"Are you a mechanic?" he asked one of them.
"Nay," he replied. "I'm a McCuig."
—Philadelphia Saturday Evening Post.

FOR SALE—Land in sonoma County. Stock, dairy, fruit and poultry farms, all sizes and prices. No better land, never failing water, no malaria. Call or write. Santa Rosa Realty Co., 636 Market St., San Francisco or Elks Bldg., Santa Rosa, Cal.

Good results have attended the extensive tests made in the Chicago Public Library of the adaptation of the electric ozone generator to ventilating systems of public buildings.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Two Tennessee draftsmen have patented a magnetic T-square, which is held against the iron-bound edge of a drawing board by an electro-magnet in its head. A switch cuts off the current and allows it to be moved.

If You Have Common Sore Eyes, if lines blur or run together, you need PETTIT'S EYE SALVE, 25c. All druggists or Howard Bros., Buffalo, N. Y.

A large inheritance transforms a skinny girl into a slender one.

It Cures While You Walk.
Allen's Foot-Ease is a certain cure for hot, sweating, callus, and swollen, aching feet. Sold by all druggists. Price 25c. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

An Illinois man has patented a display rack for edged tools which permits them to be examined without handling. A revolving standard carries circular disks from slots in which the tools are hung.

POULTRY.

Tells how to make your hens "Lay or Bust." Also about our wonderful "Lullaby" Brooders, costing only \$1.50 delivered to you; money back if not satisfactory. THE PARK & POLLARD CO., 175 Friend Street, Boston, Mass.

Sarcasitic.

"You will admit that a court is a necessity," said the judge.

"Yes," answered the audacious attorney. "But I don't like to be so frequently reminded of the adage, 'Necessity knows no law.'"—Washington Star.

Unjust.

Pluffy Young Thing (at the play)—I believe this man in front of us is trying to hear what we're saying!
Man in Front (turning around)—You do me an injustice, my dear young lady. I am trying not to hear it.—Chicago Tribune

When Your Meals Disagree

It is certainly time to take immediate action if you would ward off a serious sick spell. It is positive proof of a weak stomach and deranged digestion and for which you cannot take a better medicine than Hostetter's Stomach Bitters; but remember this, the longer you put off giving the assistance needed by the digestive system the harder it is going to be to cure you. We know of hundreds of cases, taken in hand at the very beginning, in which a short course of the Bitters proved very efficacious. Therefore, be persuaded to get a bottle today from your druggist or dealer, and thus avoid all possible danger of a sick spell. It is a wonderful tonic and invigorant for overworked, nervous and run-down persons, and in cases of Poor Appetite, Bloating, Heartburn, Indigestion, Dyspepsia, Costiveness and Malaria it is the best.

TRIALS of the NEEDLEMS

YOUR MOTHER COMING TO STAY WITH YOU FOR WEEK? OUTRAGEOUS! I WON'T STAND FOR IT!

Inhaling Water.

Undoubtedly the majority of bathers who are drowned meet their deaths from cramp. Cramp is liable to seize anybody at any moment, and when it comes in deep water few swimmers have sufficient presence of mind to turn on their backs and wait quietly until the attack has departed. So they go under. But there is another danger quite as imminent as cramp, though it is probably less known. This is water inhaling. A swimmer or even a wader is always liable to inhale spray through his nostrils, which, passing through the pharynx and behind the epiglottis or windpipe guard, gets into the windpipe and causes death. As one would expect, water inhaling is almost wholly confined to the sea and very rarely occurs in fresh water. All the same, it may happen anywhere.

Flattered by Caricature.

"Is our new Congressman homely? Well, I should say! Did you ever see a photograph of him?"
"Why, no, but I've seen caricatures of him."
"Oh, they flatter him; you should see one of his photographs."—Catholic Standard and Times.

Jump Fever.

In a party of locomotive engineers who were talking about old time fellow craftsmen reference was made to one old timer who had come to his death through "jump fever." "What's 'jump fever'?" inquired an outsider who was interested in the conversation. "Jump fever," explained an engineer, "is a sort of hallucination that affects some engineers and leads them to leap from the cab to escape a supposed impending collision. It's mostly freight engineers that are affected. On long runs out west a freight engineer may be thirty-six hours at the throttle without much chance for rest owing to mishaps. He gets sleepy and dozes in the cab. All of a sudden he wakes up, but his faculties are scattered, and what with lightness of the head and the motion of the cab he gets an idea that a collision is about to happen. In a semiconscious state he dives out of his window, and the chances are he's a goner when he lands. The engineer we referred to had done the trick twice, but he was killed the third time out on the Santa Fe Road."—Philadelphia Record.

Some Habits of the Fly.

Concerning his experiences while studying the life and habits of the house fly, Henry Hill, the well known lecturer, says in the London Standard: "I wish I could explain why a fly never walks down, but always up, a clean window pane, and why, on the other hand, it will walk down the slanting glass front of a picture. It is also a mystery to me why a fly always rests head downward on a wall. These are habits of the house fly which offer a field for interesting study."

The New Flavor

Mapleine

(Flavor of Maple)

A flavoring used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by grocers. If not sent 35c for 2 oz. bottle and recipe book.

STEVENSON AND ECKER STREETS, SAN FRANCISCO

The Curse.

An Irish authority thus defines as an expert the effects of a well delivered curse: "The belief among the ancient Irish was that a curse once pronounced must fall in some direction. If it has been deserved by him on whom it is pronounced it will fall on him sooner or later, but if it has not then it will return upon the person who pronounced it. They compare it to a wedge with which a woodman cleaves timber. If it has room to go it will go and cleave the wood, but if it has not it will fly out and strike the woodman himself who is driving it between the eyes."—London Globe.

Where is Your Hair?

In your comb? Why so? Is not the head a much better place for it? Better keep what is left where it belongs! Ayer's Hair Vigor, new improved formula, quickly stops falling hair. There is not a particle of doubt about it. We speak very positively about this, for we know. Does not change the color of the hair.

Formula with each bottle

Show it to your doctor Ask him about it, then do as he says

Indeed, the one great leading feature of our new Hair Vigor may well be said to be this—it stops falling hair. Then it goes one step further—it aids nature in restoring the hair and scalp to a healthy condition. Ask for "the new kind."

Made by the J. C. Ayer Co., Lowell, Mass.

WOMAN'S GENTLE NATURE CALLS FOR GENTLE TREATMENT

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maidens, wives or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative, is—Syrup of Figs and Elixir of Senna. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired.

Only those who buy the genuine Syrup of Figs and Elixir of Senna can hope to get its beneficial effects, and as a guarantee of the excellence of the remedy, the full name of the company—California Fig Syrup Co.—is printed on the front of every package, and without it any preparation offered as Syrup of Figs and Elixir of Senna is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs and Elixir of Senna is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. The genuine article may be bought of all reliable druggists everywhere; one size only. Regular price 50 cents per bottle. Get a bottle today to have in the house when needed.

WHITTIER COBURN CO. AGO ANTISEPTIC FLOOR OIL

CREAM COLORED DUSTLESS FLOOR OIL. MANUFACTURED BY WHITTIER COBURN CO., LOS ANGELES

A refined Hygienic, Antiseptic Dustless Floor Oil, used by the Southern Pacific, U. S. Selected Brand
Be sure you get this brand, manufactured by the CITY OF HAMBURG CO. San Francisco, California
ALL FIRST-CLASS GROCERS HAVE THEM

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

New Perfection Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Entered as second-class matter September 30, 1901, at the Postoffice at Campbell, California,
under the Act of Congress of March 3, 1879.

An Agricultural Department for the High School

A deep interest is being manifested in many sections of the State in the teaching of agriculture in the public schools. The successful teaching of such in secondary schools is no longer in doubt. Agriculture will always be one of the great industries of California, and why should not schools in agricultural districts give some definite preparation for farm life? We hear much talk about the movement, "Back to the farm," but our high schools still prepare students for entrance to universities along such lines as Greek, Latin and Trigonometry with little thought of preparation to develop the industries of the State. The fact that a large percentage of our population is engaged in agriculture of one sort or another makes it a subject worthy to be taken into the school room in as dignified and thorough a manner as any scientific or technical subject. Mechanical trades or industries are provided for in the city schools, in public as well as in private institutions, and afford an argument for placing the foundation industry, agriculture, in rural schools.

The high school located in a rural community, or drawing largely upon the farming population for its pupils, needs no further reason for adding agriculture to its curriculum than that it is thereby more closely fitting its environment. When we consider the matter seriously, it seems incongruous that a high school in a small town like Campbell, surrounded by a rich agricultural territory, should be devoting all its money and energy to instruction in language, history, mathematics and a little of science with not a word or thought of the industry which gives the place its being, and no correlation between the subjects taught and the live, throbbing heart of the whole community—its agriculture.

From the State College of Agriculture Circular No. 47, entitled "Agriculture in the High Schools," by Leroy Anderson, we learn that "The advanced step taken by the University in adding agricultural subjects to the lists of entrance credits from high schools has given a great impetus to agricultural teaching throughout the state." Several of the schools have introduced it as a definite study under a few of its many divisions and others have introduced it as correlated or applied science without presenting it as a separate course.

The Imperial County Union High School has introduced a course in agriculture and employed as head of the department, Mr. D. N. Morgan of the class of 1909, University of California College of Agriculture. He describes his beginnings fully in a letter, parts of which we quote from the above mentioned circular:

"The high school work has far exceeded my expectations. Twelve are enrolled in botany and plant propagation, six in the course in livestock. I also have the entire entering class in Physical Geography. The botany class is using Bailey's First Lessons in Biology; along with it I am working in topics of general interest such as seed selection and germination, tests of alfalfa, that is being actually planted, so that the results of our work can be shown in the crop itself.

"Under the head of livestock I am giving the class lectures; one day a week we devote two periods to actual work with the horses. As a large number of the pupils drive to school, we have plenty of material to illustrate nearly every variety of unsoundness, also to study anatomy, and types of horses. Cattle, hogs, sheep and goats will follow. The Dairyman's Union has asked if I would be prepared to make tuberculin tests, also if I would address them on the subject at one of their meetings. Needless to say I agreed. The course in dairying is working out well.

"For the physical geography work we have a splendid equipment of instruments worth five hundred dollars. I have emphasized the value of maximum and minimum temperatures over the mean and the pupils are now taking daily observations and keeping records. An excellent transit is also part of our equipment. Observations on the sun were the order of the day at the time of the equinox.

"In regard to the field work, the people of Imperial have offered me ten acres of land to do with as seems best. The people of the community are much interested in our work and have offered their places for experimental work. The board of trustees have agreed to build an agricultural building next year to cost at least ten thousand dollars. They have supplied all the books I requested."

Not only is this new movement finding favor among the farmers and teachers, but the students themselves are showing a great interest in the studies, as is evidenced by the fact that of the seventy-five freshmen enrolled in the Kern County High School only twenty-five have taken the Academic course and fifty the Agricultural.

It is because of the growing interest among patrons of the Campbell Union High School that we have undertaken to introduce this subject to our readers. This article may be but a beginning.

The Santa Clara County Editorial Association has lost its capable president and the people of Mountain View have lost a good editor and town booster. P. Milton Smith has laid down the pen and said Good Bye. L. P. Hathaway, of the Palo Alto Citizen, speaks thus:

"We cannot possibly understand how the town of Mountain View will manage to keep its place on the map of Santa Clara county without the editorial aid of P. Milton Smith, poet laureate of the prune belt. Pop is said to have dropped out of the newspaper game, his paper having been bought or otherwise assumed by one L. B. Woodruff, a newspaper magnate whose magnetic influence has invaded every community every now and then for the past some time. 'We' will miss Smith's editorials more than he will ever know; the Santa Clara County Editorial Association will miss him; the people of Mountain View will miss his Harte-Twain-Hubbard philosophy, for without Smith the Mountain View Leader will be as tasteless as a shredded wheat biscuit after a tussle with a tomato's digestion. The statement that Smith will engage more extensively in the real estate business leads to the conclusion that he will probably do some advertising and that he will write his own ads—in which instance readers of the papers in which he may advertise will be highly favored."

The people of Los Gatos are getting so much interested in the welfare of the town that they now have rival improvement clubs. Much of the progress and prosperity of the place is due to the good work of its Board of Trade, but now a new faction has caught the spirit and will try to do some boasting. R. P. Doolan is chairman of the committee on organization and is preparing an "address to the Gatos is a live town, and with the spirit of rivalry and much good may result."

According to the Santa Clara News, that town where new sewers completed, and by the first of July a new sewer line will be installed. Also, a movement is on foot to build a road facilities, to erect a handsome new mission, and to lay the electric lines. Then will come the paving of the streets and laying of cement sidewalks.

University Celebrates Jubilee Week

After Fifty Years of Constant Growth
State University Now Ranks
Among the First

This has been "Jubilee Week" at the University of California. Besides the Annual Commencement much time has been devoted in honor of the opening of the doors of the College of California, in Oakland, in 1860. In the same year the campus at Berkeley was formally dedicated.

The College of California was the outcome of the unselfish efforts of a small group of men, of whom Dr. S. H. Willey was the earliest mover and is now the sole survivor. His activity in this matter dates back to April, 1849. In 1853 the master mind of Henry Durant came to the aid of the cause. In 1860 the efforts of Willey and Durant were reinforced by the fine spirit of Martin Kellogg. In 1868 the officers of the College of California transferred to the State all their property, including the campus at Berkeley, on the sole condition that, along with the projected College of Agriculture and Mechanic Arts, the State should maintain a College of Letters, to the end that there might be a real university in California.

In 1860 three professors, together with three assistants, began formal instruction in the college out of which grew the University of California, with a freshman class consisting of eight students. Now, only fifty years later, the freshman class numbers over eight hundred, instructors and officers almost six hundred, and the university is easily granted a place far to the front among State universities.

The Jubilee celebration of this year has been of interest to people throughout the country. A great many alumni were present; impressive pageants, athletic events, pilgrimages of various sorts, class dinners, and events such as these filled every moment of the time from May 16 to 18.

Just now some facts concerning this Great university may be of special interest. The institution could hardly have found a more desirable location than on the Berkeley Hills, directly opposite the Golden Gate.

The site of the university comprises about two hundred and seventy acres. From the shores of the Bay the land rises gently to the campus, two miles distant. The entrance is one hundred feet above the sea level. Inside the grounds the slope is more abrupt, climbing to a height of over nine hundred feet, while back of it the chain of hills continues to rise one thousand feet higher. The outlook over the plain, the cities of San Francisco, Oakland, Alameda, and Berkeley, the mountains, the Golden Gate, and the ocean, is unsurpassed in beauty.

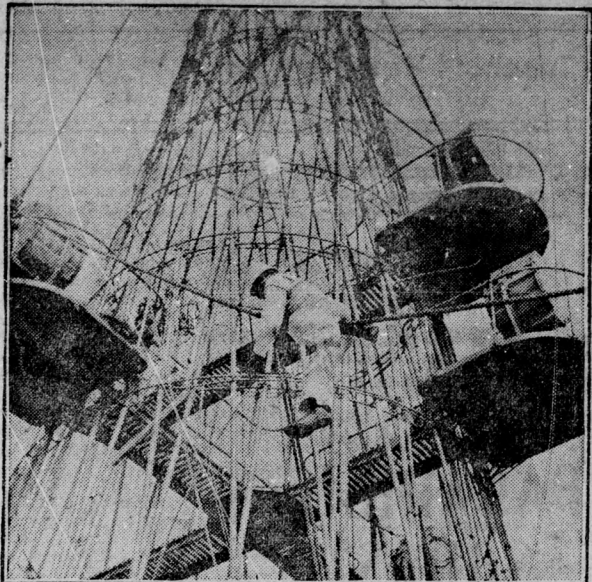

Last year 3,791 students attended the university, called there by interest in different lines of work, for the State is educating men to be leaders in her industries as well as to be scholars. In the university are being trained the civil engineers who will build the State's railroads and bridges, the electricians who will harness her mountain streams, the miners who will wrest from the rocks her mineral wealth, the irrigation experts who will make her now useless dry lands productive, the scientific agriculturists who will increase the quantity and raise the quality of her already immense harvests, and solve the problems of over-worked fields and alkali deposits, and the diseases of animals and plants. The State's doctors, dentists, and lawyers are being educated in this university, and its College of Commerce is training men for business, for consular service, and government responsibilities. Many teachers go from California to the Philippines, Hawaii, and Japan.

"Oskey-wow-wow
Whisky-wee-wee
Oli muklei
Oli Berklei
California-Wow!"

A Regular Tom Boy
was Susie—climbing trees and fences, jumping ditches, whittling, always getting scratches, cuts, sprains, bruises, bumps, burns or scalds. But laws! Her mother just applied Bucklen's Arnica Salve and cured her quick. Heals everything healable—Bells, Ulcers, Eczema, Old Sores, Corns or Piles. Try it. 25c at all Drug-ists.

The Press is in receipt of copies of the Lamar Daily News, the paper upon which M. Earle Adams is now employed. The city in a large display ad claims itself "The Capitol of Southeastern Colorado. No saloons. Good schools. A clean home city."

An Ideal Husband
is patient, even with a nagging wife, for he knows she needs help. She may be so nervous and run-down in health that times annoy her. If she is melancholy, irritable, troubled with loss of appetite, headache, sleeplessness, constipation or indigestion and dizzy spells, she needs Bitters. The most wonderful remedy for ailing women. Thousands of women from female troubles, nervous backache and weak kidneys find in them and become healthy and strong. Try them. Only 50c. Satisfactory results guaranteed by all Druggists.

THE NEW MILITARY MAST ON UNCLE SAM'S BATTLESHIPS.

The skeleton mast of steel rods is the newest feature of American warships, and the vessels of the Atlantic fleet and those nearing completion are now provided with them. Admiral Evans recommended their use some time ago, and after experimenting with them they were adopted by the navy department. The solid steel military mast formerly in use could be shot away with great ease, but the new masts cannot be overthrown by a single shot.

If you have desirable property for
sale it will pay you to list it with

The Campbell Realty Company

The Fruit Season IS CLOSE AT HAND

The Farmers Union is ready to supply you with everything that's needed from the pails for picking to the jars for preserving.

We have a big stock of lye and sulphur, and fruit growers and driers will do well to get in touch with us before the season begins.

A complete stock of general merchandise is offered at the Farmers Union; whatever is needed in the home and about the farm can be bought here, and usually for less money than you'll have to pay at most places.

Our various lines embrace Provisions, Crockery, Teas and Coffees, Hardware, Farm and Garden Implements, etc.

Careful attention given to all mail orders. It will pay you to become a regular patron at "Santa Clara County's Greatest General Merchandise Store." Write us for prices on anything you need.

Farmers Union

Santa Clara County's Greatest General Merchandise Store
San Jose Branch at Campbell

POSE AS A CAPITALIST

For ONE DOLLAR we will send you three handsomely lithographed, but worthless stock certificates, which you can fill out yourself for any amount, and have lots of fun showing to your friends as proof that you are wealthy. These certificates appear to represent railway, gold mining and insurance enterprises and look just like the "real thing," but must not be used to realize money on.

ONE SAMPLE FOR FIFTY CENTS.

(send two cent stamp for illustrated circular)

If you were Buying Eyes?

Would you buy the best or the cheapest?

You should follow the same rule in buying glasses.

The "Ladies' Home Journal" calls cheap glasses, "Ten Cents Worth of Trouble."

A few dollars spent for glasses when they are first needed often prevents results too terrible to even think about.

My motto:
Glasses, Right—Just, Right.

BERT K. KERR, Optometrist

31 E. Santa Clara St. San Jose
Formerly the PRATT-KERR OPTICAL CO.

NOTICE TO TAXPAYERS

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where the property is located. You should give a statement of all property owned by you on the FIRST MONDAY IN MARCH AT 12 O'CLOCK M.

If you hold mortgages or trust deeds against others, send in mortgage statement early in March, so proper deductions can be made showing amount due on each mortgage or trust deed on the first Monday of March at 12 o'clock m.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

Roll Tax is now due and payable at the Assessor's office or to a deputy. After the FIRST MONDAY IN JULY it will be added.

It is much more satisfactory to the Assessor, as well as to yourself, to have your assessment correct when you go to pay your taxes.

L. A. SPITZER, Assessor.
